Executive Principal: Mrs R. Snee

Dear Parents and Carers,

At St. Peter's Catholic Academy, we want staff and pupils to enjoy the sun safely. We will work with staff, pupils and parents to achieve this by raising pupil and parent awareness.

It is important to know that too much exposure to ultraviolet light (UV) radiation from the sun causes sunburn, skin damage and increases the risk of skin cancer. There is enormous potential for schools to prevent skin cancer in future generations.

We would like to work with parents to ensure the safety of all our children during these summer months. We aim to do this by teaching the children about sun safety in school.

We also ask parents to talk about the ways in which they can protect themselves during the hotter periods of weather.

As the children may spend extended periods of time outside for example with PE lessons, trips, and outdoor learning we are asking that you provide your child with a:

- Sun hat/cap every day
- Clearly labelled sun cream
- School water bottle
- Sunglasses are **not** allowed

Please ensure these are in school every day so that we can keep the children protected throughout the day.

The Children will be encouraged to stay in the shade where possible during hot periods of the day, they will be encouraged to apply sun cream and wear their sun hats alongside reminders for hydrating.

Thank you for your continued support

R Snee (Mrs)  
Executive Principal
