

Let's pretend

How to...

Join in pretend or imaginary play with your child.

It can be anything your child enjoys, from tea parties with teddies to playing doctors or firefighters.

Help your child by showing them new ideas for their play, such as how the doctor takes a temperature or how the firefighter sprays water.

Talk about it

- Use verbs or action words to talk about what you and your child are doing, for example:
- “the fireman sprays water and soaks everything!” or
- “teddy’s just sipping his tea because it’s very hot” or
- “you could use the thermometer to measure my temperature”
